Re: Disposal of Tumbling Operation
Baghouse Dust from
SKF Needle Bearings Division
Bremen, Indiana

Dear Mr. Hartsell:

This letter acknowledges the request for disposal dated April 6, 1987, from Mr. Carson Eddy, SKF Needle Bearings Division.

Approval is hereby granted for disposal of 200 fifty-five gallon drums per year of tumbling operation baghouse dust at the Prairie View Landfill, OPP No. 71-2, St. Joseph County. The waste is to be mixed with solid waste and covered with a minimum of six (6) inches of cover soil by the end of the working day.

The approval is granted subject to the following conditions:

1. The generator and/or hauler must contact you to notify you of the time of disposal and conditions of shipment.
2. If nuisance or pollution conditions are created, immediate corrective action will be taken by the operator.
3. Waste material accepted under this approval shall be included on the Special Waste Monthly Report to be submitted to this office monthly.
4. This approval will expire June 30, 1988.

This approval will be revoked if the landfill fails to maintain compliance with 330 IAC 4-1, et seq. (Regulation SPC-18). Any necessary local approval must be obtained, but is not required for this approval to be valid.

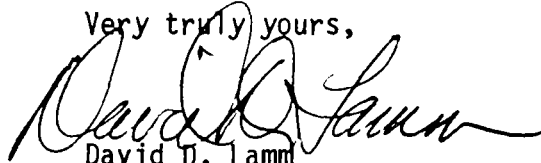

Mr. Charles Hartsell
